Step by step assembly instructions

Step 1

With 2 people, carefully take out the carcass (part 1) and place in position.

CAUTION!

Please take care when lifting. Do not drag the unit when moving, must be lifted to prevent damaging the legs! Carefully turn the product so it is upright ensuring that the doors do not come loose.

Tip: Flip down door in center.

Step 2

Locate the shelf supports (part A) into the desired height. After, locate the shelves (part 2 & 3) onto shelf supports as shown below. Then adjust the foot on the centre support leg, turn until it sit at the hard part of the floor as shown below.

Step by step assembly instructions

Wall fixing - if in doubt seek professional advice

Please ensure to use the correct size rawl plug when installing the wall bracket to a wall. If your wall is cavity construction or wood you may need to seek appropriate wall fixings.

Wood

If fixing to wood make sure that it isn't chipboard as screws can easily pull away from the core structure.

Brick or Masonry

Use an appropriate wall plug provided you are sure your wall is sound.

Cavity wall

Special toggle wall plugs are needed. Seek expert advice.

Step 3

With a screwdriver (not included), secure the wall bracket (2x part C) to the back of product using the screw (2x part B) into the pre-drilled pilot hole, as shown below.

Step by step assembly instructions

Step 4

Before drilling, ensure the size of holes will be correct to fit the rawl plug (not included). Drill the hole according to the marked position and push the rawl plug (not included) into position, then with a screwdriver secure the wall bracket (2x part C) to the wall using screw (not included), as shown below.

Warning: Ensure the area to be drilled is free from hidden electrical wires, water and gas pipes.

Step 5

Thread the cable tie (part D) through the two wall brackets (part C) as shown below. Move the product back towards the wall and into position. Never drag furniture when moving it, always lift it. Tighten the cable tie (part D) to secure in place.

WARNING!

In order to prevent overturning, this product must be used with the wall attachment device provided.

Care and Maintenance

Wood furniture

- Wood displays different grain patterns depending on how it is cut. For example, the 'medullary rays' that can appear are a mark of good-quality timber. These are simply characteristics of the natural beauty of the wood. Some furniture is also deliberately aged and given a rustic finish.
- Wood veneers also allow distinctive patterns to be created on flat surfaces, such as table tops and drawer fronts by the way the slivers are arranged.
- All timber surfaces will change colour and mellow over time. New furniture will initially vary in shade from items that have been previously purchased.

How to care for your wood furniture

- Furniture with a hard lacquer, wax polish or painted surface should be dusted with a dry cloth.
- Spray polishes are best avoided as they contain silicones which may spoil the furniture's surface by building up over time.
- Make sure all surfaces are protected from heat and liquids by mats and coasters. Wipe up spills immediately and ensure that a mat or pad is placed under paper if you are writing.
- Our furniture will endure most temperatures in the home but it is best to avoid placing furniture next to heat sources such as radiators or fires. Be particularly careful with solid wood as the lack of humidity caused by central heating can cause damage such as warping.

Safety instructions

- Never drag furniture when moving it, always lift it.
- Do not sit or stand upon this product.
- Periodically check all fixings to ensure none have come loose and re-tighten where necessary.
- Please take care when handling or moving the furniture, careless handling may cause damage or injury.
- Furniture can be dangerous if incorrectly installed. Assembly should be carried out by a competent person. No liability will be accepted for damage or injury caused by incorrectly installed or assembled furniture.
- It is recommended that before moving heavy objects to a new location they are completely disassembled to avoid personal injury or damage to the furniture. Please be careful to retain all fittings when doing this.

PLEASE READ!

This veneered product top has a natural open grain finish. Please read the care guide thoroughly. We recommend using mats and wiping up spilled liquids immediately. Avoid placing plant pots or vases without waterproof mats to prolong the life of this product.

Experiencing problems with your new product?

Before calling customer service, please have your item's batch code ready.

You can find the batch code on the back or bottom of your product as shown below.

(example batch code: 200510)
