1: Insert the seat cushion crossbar, note that assembly requires eye alignment

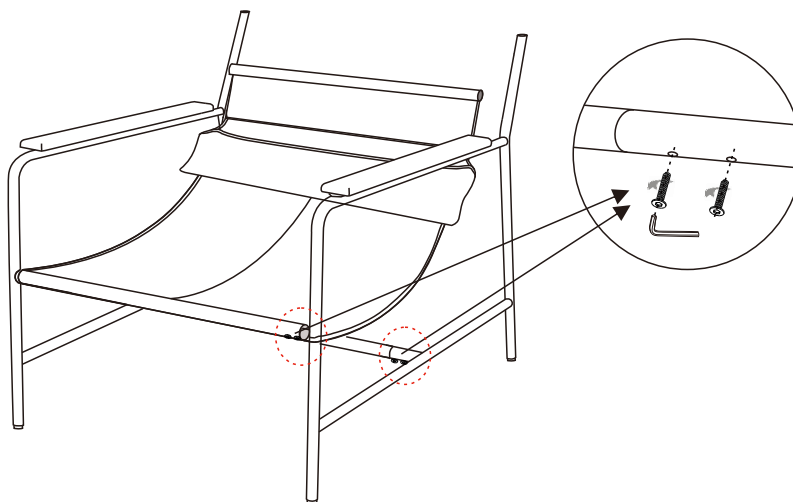

2: First, fix it with assembly screws, and connect the armrest and seat cushion link on one side

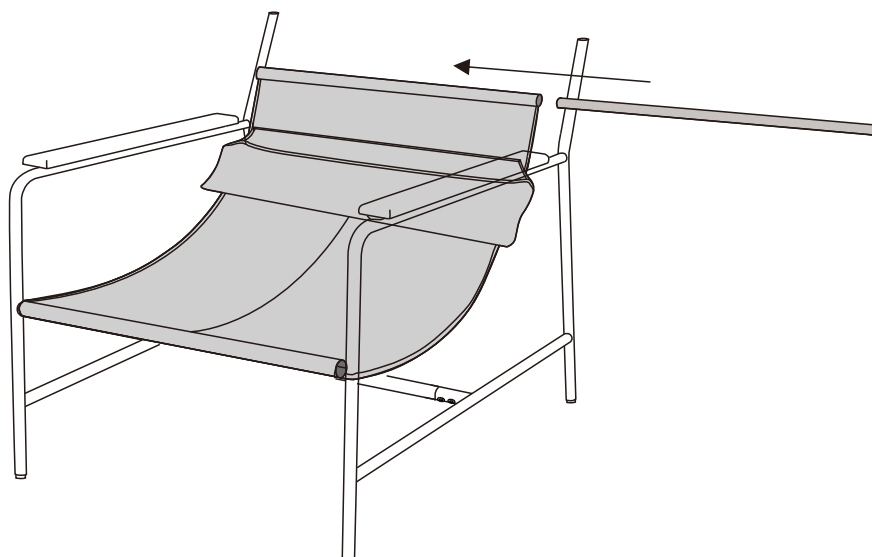

3: Insert the bottom cloth cover of the seat cushion, and insert the lower end of the seat cushion first

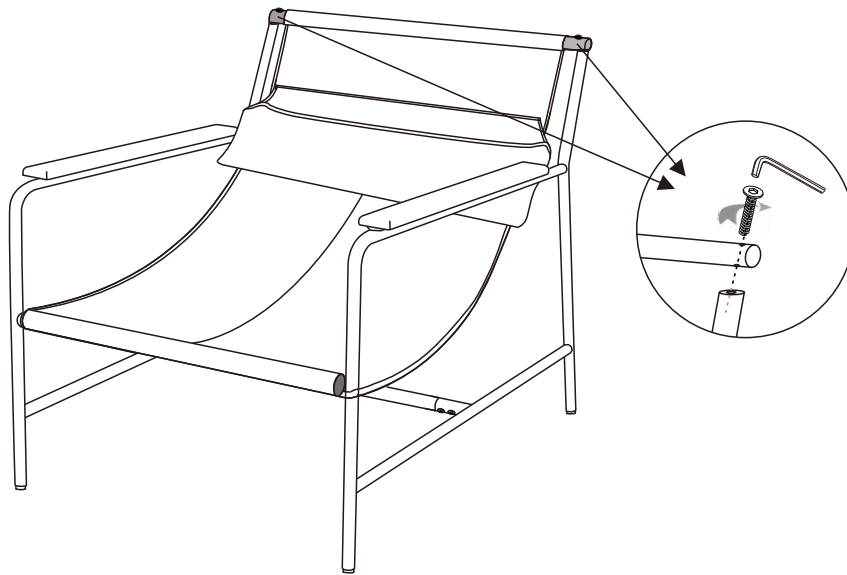

4: Insert the other armrest

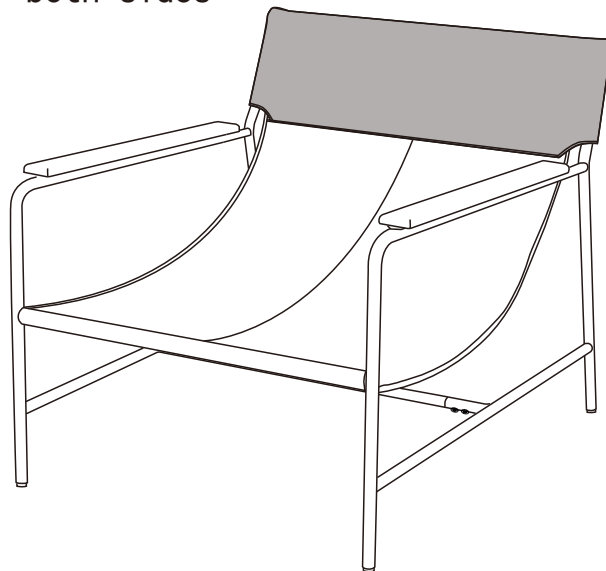

5: Fixed with screws, the other armrest and seat cushion

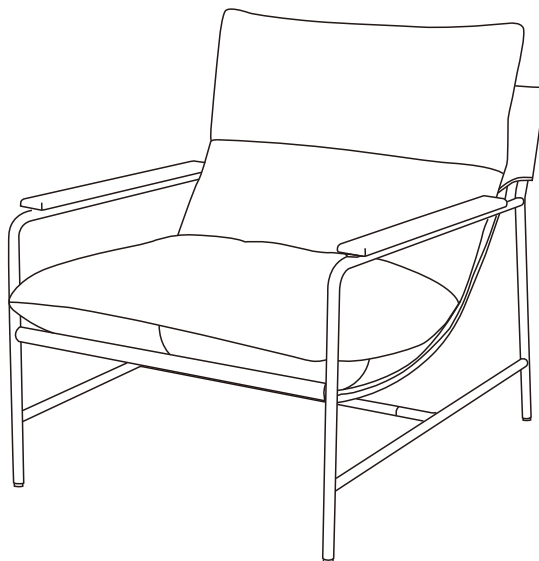

6: Insert the upper end of the cushion bottom cloth cover into the back connecting rod

7: Fix with screws, back connecting rod and handrails on both sides

8: Flip up and cover, backrest link

9: Place the cushion soft bag and organize it
